24 Hour Emergency Sales and Service • 651-766-0874
General Repair Service has a fleet of service trucks available
24 hours a day and our service personnel are factory trained.

Pump Sales and Service for

Industrial • Potable Water • Waste Water • Digital Dosing

Services Available

Seal Conversions • Laser Alignment • Custom Machining
 Welding and Fabrication • Balancing • Data Logging

Service Provided for all Brands of Pumps, Blowers & Air Locks

General Repair Service can repair all our manufacturers pumps in addition to:
 Allis Chalmers, Aurora, ABS, ARO, Berkley, Byron Jackson, Burks, Carver, Clow,
 Deming, Durco, Dunham-Bush, Flygt, Goulds, I-R, Moyno, Meyers, Paco, Pentair,
 Scot, Seepex, Smith & Loveless, Viking, Warren Rupp, Weil, Wilden, and more.

We also offer a full service Machine Shop including metallizing.

Metallizing is the process where worn out parts can be built up with an atomizing blast of molten metal to form a new coating. The coating is then turned or ground to the original tolerance and ready for service.
